I've been maintaining and updating this list for about 16 years now. I try to make it as user friendly as possible. I just want to help get the word out where drum circles are. Hopefully there is one near you to check out, or if you travel somewhere, it will help you find one. You don't need to register, give out your email address, or anything like that. Just trying to get by, & put some good out in the world.

If you'd like to link to my drum circle finder, that's fine. I would appreciate a brief mention of my website in return. That's all I ask. Please don't copy and paste this work on to another website. We gather each Sunday to get free in a skillfull way. We practice drumming,

into our core, the source of rhythm inside of us. We practice hearing the
music with our whole bodies, moving ourselves in a dance with the drumming
and our inner spirits. We strive to build a strong safe container so that
this deeper journey can be joyful and healing for everyone.

is back at it's former location Sundays about 4 pm - 7 pm. Good news, as this long established drum circle
has been surviving various things and is still going on for some 23 years (spring to winter). Pretty amazing.

The Grand Basin drum circle has been exiled to Kennedy Forest Park. The Kennedy Forest location is a cul-de-sac in the SW corner of Forest Park off Wells Dr. Coming from Clayton go N. on Skinker, enter on Wells Dr. & 2nd left to the park. Skinker & Clayton Rd (near hwy 40/64), turn on Wells. Kennedy Forest entrance is the 2nd left on a street 1/2 mile down a long road. There's a sign. Drumming is Sunday by the pavilion and starts about 4pm until 6 or dark. The St. Louis Forest Park drum circle sometimes happens on Sundays, but no longer at the Grand Basin. (*Please note that sometimes the drum circle happens at the pavillions along Wells*)

There's a large plateau next to the parking area (overlooking the northside of the valley). We'll be there. Very easy walk from parking lot but wear comfortable shoes. Its a beautiful and scenic place to drum and watch sometimes epic sunsets. Far from houses or businesses so we can drum w/o bothering anyone. This drum circle is great for beginners & players of all levels. I'd also like to explore how we could
use this group to perform some type of community service. All types of instruments are welcome and
it'd be great to see some dancers join in on the fun also. It's a family friendly group where we
help you feel the welcome beat. Join up to find out where and when the next drum circle will be.

This drum circle finder is a free service to the drumming and dancing community since 1999.
It was established back in the days of the free websites, Lycos, Excite, Geocities, Webtv, etc.
Thanks kindly for all the help, and support from everyone over the years. I really appreciate it.
Pick up one of the drum circle jams from CDBaby or itunes if you can. Every little bit helps.

I hope the drum circle finder helped you to locate a drum circle in your area. Again, if you know of an ongoing weekly,
or monthly drum circle that's not listed, please email me, or add it to the FaceBook Drum Circle Finder page, and let

Thanks for your support, comments, and kind words over the years.

How to add your weekly or monthly drum circle to the Drum Circle Finder

Back To The drumcircles.net Home page:

At my home page drumcircles.net I offer my 2 drum circle rhythms CD's for \$10, 2 hour rhythms DVD for \$10, and my 300 page book, "A Practical Guide To Hand Drumming And Drum Circles" is \$8 on Amazon Kindle. My DVD is also on Amazon for a few bucks more. (The Instant Video as well.)

I also teach hand drumming to children and adults. Locally I work with a variety of groups, and I facilitate drum circles around the Saint Louis area. I do some charity work for a number of worthwhile organizations. There's a little wear and tear on the drums & percussion I provide.

The proceeds from sales of my drumming CD's, DVD's, and drum circle book help me to fund work in our community. I try to offer them at as reasonable a cost as possible. As an independent artist, funds are always tight, so I always appreciate a product that is a good value for the money. That's the idea behind my book, CD's & DVD. Helping fellow musicians. Thanks in advance for helping us out with repairs, expenses, & this site.

If you're on FaceBook, try it here also.

Need Some Free Drum Circle Opinions, or some advice? Just ask, I'm happy to try and help.

If you need some advice, suggestions, ideas, or anything at all about hosting any form of drum circle, I am more than happy to try and help you along. Even if you aren't sure what kind of drum might be right for you, or your group, just email me and I will try to help you out. I don't actually sell drums, but I do have years of experience with most major brands, styles, and retailers. I can suggest the places I buy mine from. If you are wanting to host or facilitate drum circles, this art form has evolved a lot in the last 10 years alone. Art can be very subjective. There used to be only 1 or 2 widely accepted ways to facilitate drum circles. Now there are dozens of styles all around the country, and around the world.

look at the way MMA (mixed martial arts) has evolved. It used to be if you were proficient at Judo, Karate, wrestling, or some other discipline, just being an expert at one style left most at a disadvantage. The ones who are the most well rounded in all the different styles do the best now in mixed martial arts. And drum circle facilitation is similar in this way. We have all these different cultures that each have their own style of drumming, and ways of group drumming.

So in my opinion, the way to become the best, is to try and learn from as many facilitators as possible. (Not just one) And also learn as many cultural styles as possible, so you can be more well rounded in your skills, and work with any group under any circumstances. Try to study, or study with as many professionals as you can. The learning process should never end, because we are in an ever evolving field. Your style that you develop can be uniquely yours, a combination of the best of all of them. It takes a lot of work to be a good facilitator that understands group dynamics, and musicality.
